Spring training made available through the generous support of Arapahoe Basin Resort is the most cost effective way for Team Summit Colorado athletes to log many of the all-important on-snow days to maximize progression and work towards next season's goals. As compared to "away" camps with costs for transportation, lodging and meals, the Arapahoe Basin training provides high quality training for the cost of accessing terrain, snow and lifts.

Training is planned for up to 16 days on snow and is directed by TSC Alpine Ability and Age Class coaches. Focus is on progression of fundamental ski racing skills in free-skiing and basic gate training environments.
