Lodging: Juniper Springs Resort <https://www.juniperspringsmammoth.com/hotel/accommodations>

Transportation:

TSC vans will depart 6:00 AM June 6 for the 13 hour drive to Mammoth. Return will be June 20 at 9:00PM. Athletes choosing to fly to Mammoth Lakes, CA must arrive June 6 and depart June 19 after 2PM

Additional Information:

With its substantial annual snowfall and stable weather, Mammoth Mountain offers some of the most reliable and highest quality late spring/early summer training in the world. An annual training site of the US Ski Team and Clubs from around North America, the Mammoth Mt. Race Department caters to visiting teams' training needs.

Lodging will be in condos and meals will be prepared home-style under the direction of staff and with the help of a rotating crew of camper assistants. Athletes will learn the basics of healthy nutrition, meal planning, and preparation, as well as, benefit from significant cost savings.

Training is planned for 12 days on snow and is directed by TSC Alpine Ability and Age Class coaches. Focus is on fundamental technique and tactics in a high volume environment of GS and SL training. This camp builds on the stance and balance focus of April/May Spring Training which is a critical pre-requisite to maximize the effectiveness of training in Mammoth.

Conditioning activities will include optional Mt. Biking on Mammoth's extensive trail network. All bikes will be transported in TSC vans for athletes who will participate in Mt. Biking activities. Alternate conditioning activities will be provided for any choosing not to Mt. Bike.
