

RAISE THE ROOF CAMPAIGN

GOAL : \$50,000

The Rosener Human Performance Center

is designed to introduce and inspire young athletes to develop a passion for physical performance. Strength and conditioning is vital to athlete development and the long-term success in winter sports.

This project will empower our athletes to utilize the center's resources to learn about the body's capabilities and ultimately allow them to leverage a strong healthy body to enable them to achieve their personal podiums.

Funds raised by you will support equipment and facility updates for our athletes and coaches.
